

## 3/2-way Solenoid Valve for pneumatics

Type 6526 can be combined with...

**Type 2506**  
Cable plug

**Type 2510/2511**  
ASI cable plug

**Type 8640**  
Valve island

**Type 2031**  
Diaphragm valve

**Type 8644**  
Valve island

**Type 0044**  
Pneumatic cylinder

The solenoid valve Type 6526 consists of a pneumatic valve body fitted with Type 6106 rocker pilot valve.

The rocker principle allows switching of high pressures together with low power consumption and fast response times. The extendable Type 6527 can be used for block modules (tag connectors in front) or for entire valve islands (8640 & 8644 - tag connectors at the block).

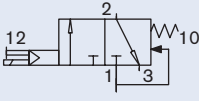

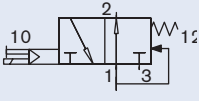

All valves are equipped with manual override as a standard.
